Projects

Airline Reservation Management System/ JavaScript, Php, and SQL

- College-level Project, developed by HTML, Tailwind CSS, React, PHP, and SQL.
- It contains two sides, the Admin and User side.
- Admin can schedule, update the flights and can see the ticket booking details.
- User can buy the tickets for flights according to their time and city.

easyConstraction.com/ TailwindCSS, React Js, Node.js and SQL

- College-level project, developed by Tailwind CSS, React, Node.js, and SQL
- It contains two sides, Admin and user
- here, the User is a person related to the construction field and can buy construction-related materials like cement, tiles, paint, etc, and can contact construction-related workers like plumbers, painter, carpenters, etc
- Admin updates the quantity and price of equipment.
